- g. Midcareer Course #84 ended on 29 April with a brief address and presentation of certificates by the Deputy Director for Administration (DDA).
- h. Members of the Professional Development Staff, Office of Training and Education (OTE), will begin their interviews with senior Agency managers this week on executive development. Office directors and their deputies will be asked to comment on the recent report concerning executive development. We plan to restructure the Senior Officer Development Course, in part on the information gleaned from these interviews.
- i. As the Spanish Section of the Language School, OTE, concludes its final week of a highly successful intensive immersion program, the French Section is making final preparations for its 9 27 May Total Immersion Program-the largest in the Language School's history--consisting of 16 students and five instructors who will participate on a full-time basis.
- j. Several Spanish instructors as well as recent retirees are assisting the FBI in administering oral proficiency tests to 800 FBI employees. The national shortage of certified oral proficiency testers makes such interagency collaboration vital.

25X1

1. The Information Science Center, OTE, is completing its fourth one-week course for CIA analysts who are new users of the SAFE system. This course concludes the initial transition training for CIA SAFE. From this point, training courses for CIA analysts will be held on a monthly basis. The first two SAFE courses for DIA analysts are scheduled for 13 - 17 and 20 - 24 June.
